ADMINISTERED TESTS/TOOLS

IPLC™

The IPLC is a psychometric test that provides a measure of the five major personality traits of the Big Five model, namely Openness, Conscientiousness, Extraversion, Agreeableness and Emotional Stability, each of which is broken down into two more specific facets (10 dimensions in total). This automated tool provides a quick overview of the main personality traits of the candidate.

NVA™

The NVA is a psychometric aptitude test that measures non-verbal logical reasoning through the completion of visual sequences. It was designed to ensure that results are not influenced by language proficiency or cultural background. This automated tool provides a quick overview of a candidate's learning ability.
