Adaptive PowerPoint 365 Assessment

## **ISOGRAD (TOSA)**

Ms fst\_1644600 Ist\_1644600

Skill Level: Productive - 3/5

Time: 36:08

Test date: October 27, 2023

## 1. Result

**SKILL LEVEL**

PRODUCTIVE  
- 3/5

The candidate has demonstrated a productive skill level of 3 out of 5 in PowerPoint 365. They have shown proficiency in various domains such as Themes & Templates, Text formatting, Graphic objects, and Environment/ Methods/ Slideshow. The candidate is able to change theme colors, fill shapes with patterns or textures, and apply themes to all slides. They understand hidden slides and can change orientation within the slideshow environment. The candidate knows how to define .potm file extension and retouch pictures in PowerPoint. However, they need improvement in tasks like leaving Slide Master view and managing motion paths for graphic objects.

## 2. Analysis

### Progressive estimate of candidate level

This chart shows how the system adapted the difficulty level of the questions to candidate responses as the test progressed. The grey line shows the candidate's estimated skill level before each question.

### Questions ordered by difficulty level

This chart shows the questions the candidate was asked, by level of difficulty.

### 3. Domains

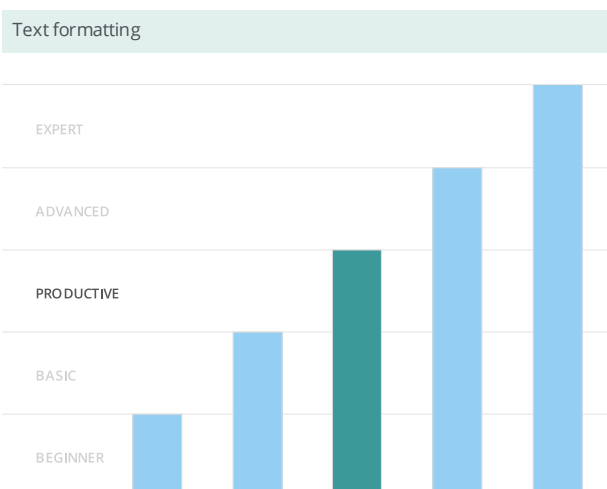

AI generated skills analysis Beta

**Themes & Templates:** This domain covers creating, using, and managing presentation templates, as well as working with slide masters, document masters, and layouts. The candidate is able to change theme colors and apply background styles. However, the candidate does not seem to understand how to leave Slide Master view or edit the colors of a theme manually. The candidate can change the theme of a single slide and apply a theme to all slides. They also know what .potm file extension stands for but do not seem to know about theme fonts composition.

AI generated skills analysis Beta

**Graphic objects:** This domain covers the insertion and formatting of graphic objects such as Clipart, charts, SmartArt), and PowerPoint animations. The candidate understands photo formatting techniques but does not seem to know how manage motion paths or retouch pictures effectively. They are able fill shapes with patterns or textures but struggle with changing auto-shapes in practical exercises. Additionally they can reverse animation order in practical exercises but have difficulty deleting legends from graphs while adding data tables.

AI generated skills analysis Beta

The candidate has demonstrated a skill level of 3 out of 5 in the domain of Text formatting. This domain covers text input, basic and advanced formatting, bullets and numbering, creating and manipulating tables. The candidate is able to change theme colors, apply background styles, define .potm file extension, change the theme of a single slide and apply a theme to all slides. However, the candidate does not seem to understand how to leave Slide Master view or edit the colors of a theme manually. The difficulty levels for these questions were moderate.

Environment / Methods / Slideshow

AI generated skills analysis Beta

The candidate has demonstrated a skill level of 3 out of 5 in the domain Environment / Methods / Slideshow. This domain covers features and functions related to File tab, Home tab Design tab Insert tab Slide Show view as well as configuration parameters for print and save options. The candidate is able to show or hide objects, create custom slideshow, move slides from one presentation to another but does not seem to know how to use presenter view or hidden slides option effectively. The difficulty levels for these questions were moderate.
