PowerPoint 365-Intermediate (FR)

Mr B Candidate

Group: Groupe principal
Score: 60/100
Test date: August 25, 2026

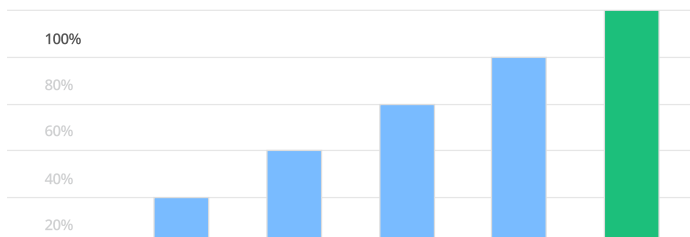

Score: 60/100

PowerPoint Microsoft 365 Skills Assessment The candidate demonstrates solid competency in **Text Formatting** and **Themes and Templates**, successfully applying themes, converting text to SmartArt, and managing placeholder text. They show strong proficiency in **Graphic Objects**, including resizing shapes, removing audio, and recognizing animation trajectories, though they struggle with filling shapes with images and applying animations to objects. However, significant gaps exist in **Environment**, **Methods**, and **Slideshow** management. The candidate cannot reduce the ribbon, use the Selection pane, adjust slide sizes, or apply animations across multiple slides. They also lack understanding of advanced features like marking presentations as final and applying animations to individual shapes. Overall performance indicates intermediate skills with notable weaknesses in interface navigation and animation functionality.

1 Domains

Themes and Templates

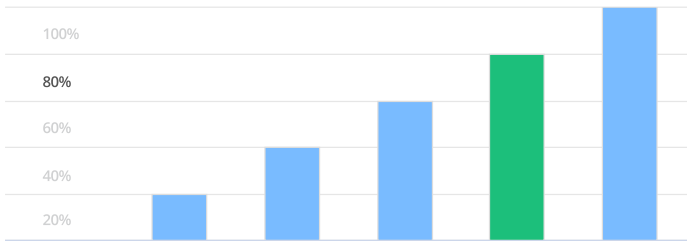

DOMAIN DESCRIPTION:

This domain covers creating, using, and managing presentation templates, as well as working with slide masters, document masters, and layouts. Skills in using and modifying pre-defined themes are also assessed.

AI ANALYSIS OF ANSWERS

This domain covers creating, using, and managing presentation templates, slide masters, and layouts, along with modifying pre-defined themes. The candidate achieved an 83.33% success rate, demonstrating strong competency. The candidate can apply themes to presentations and understands the distinctions between themes and templates. However, the candidate does not seem to know how to apply animations to all slides simultaneously. In the practical exercise on applying a theme, the candidate successfully completed the task, showing solid hands-on capability with theme application.

Graphic Objects

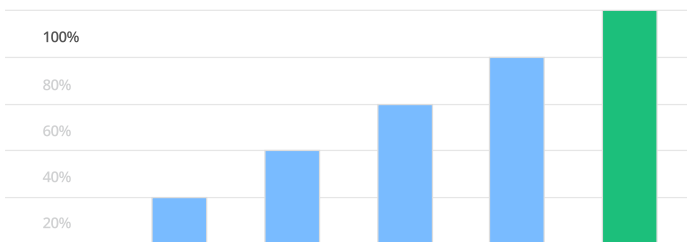

DOMAIN DESCRIPTION:

This domain covers inserting and formatting graphic objects (Clipart, charts, SmartArt), and PowerPoint animations.

AI ANALYSIS OF ANSWERS

This domain covers inserting and formatting graphic objects including clipart, charts, SmartArt, and PowerPoint animations. The candidate achieved a 66.67% success rate, showing moderate competency. Regarding shape manipulation, the candidate can increase shape sizes and recognize animation trajectories. However, the candidate was unable to apply animations to shapes or fill shapes with images or textures. In the practical exercise on adjustment buttons, the candidate demonstrated successful task completion, indicating developing skills in graphic object handling despite gaps in animation and texture application.

Text Formatting

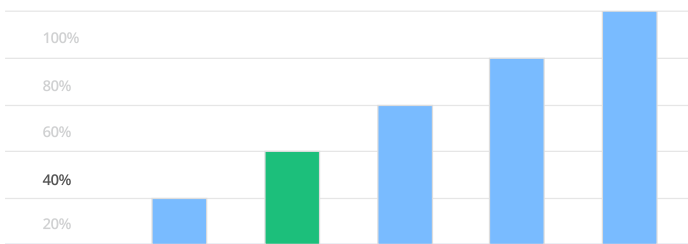

DOMAIN DESCRIPTION:

This domain covers text input: using text placeholders, basic and advanced formatting, bullets, and numbering. It also covers creating and manipulating tables.

AI ANALYSIS OF ANSWERS

This domain covers text input, formatting, bullets, numbering, and table creation and manipulation. The candidate achieved an 83.33% success rate, demonstrating strong proficiency. The candidate can create bulleted lists with tabulations and transform text into SmartArt effectively. The candidate understands text placeholder modification and file extension definitions. However, the candidate does not seem to know how to center text vertically within text boxes. In the practical exercise on vertical text centering, the candidate was unable to complete the task, revealing a specific gap in vertical alignment techniques despite overall strong text formatting capabilities.

Environment, Methods, and Slideshow

DOMAIN DESCRIPTION:

This domain covers the main features and functions of the common tabs: File, Home, Design, Insert, and Slide Show. Skills assessed include creating, inserting, and selecting slides; basic and advanced functions of Slide Show view; and configuring print and save parameters.

AI ANALYSIS OF ANSWERS

This domain covers main features of File, Home, Design, Insert, and Slide Show tabs, including slide creation, selection, slideshow functions, and print/save configurations. The candidate achieved only a 20% success rate, indicating significant difficulty with this domain. The candidate does not seem to understand ribbon management, slide size configuration, or selection pane functionality. The candidate cannot mark presentations as final or utilize slide size buttons effectively. However, in the practical exercise on restoring ribbon display, the candidate successfully completed the task, showing minimal capability in environment and slideshow management overall.
