PowerPoint 365-Advanced (FR)

Mr B Candidate

Group: Groupe principal
Score: 60/100
Test date: August 26, 2026

Score: 60/100

Skills Synthesis - PowerPoint Microsoft 365 The candidate demonstrates solid competency in **Graphic Objects**, successfully managing shadow parameters, embedding audio files, modifying shape points, and hiding objects across both straightforward and complex tasks. They show proficiency in **Environment, Methods, and Slideshow** fundamentals, understanding available presentation tools and audio format compatibility. However, significant gaps exist in **Themes and Templates** and **Text Formatting** management. The candidate struggles with advanced features including theme color customization, spell-checker language settings, footer insertion, and layout utilization. They also lack mastery of revision comment handling and action button implementation in slide masters—critical advanced skills. The candidate can handle practical graphic operations but requires development in template customization and text formatting refinement to achieve comprehensive PowerPoint proficiency.

1 Domains

Themes and Templates

DOMAIN DESCRIPTION:

This domain covers creating, using, and managing presentation templates, as well as working with slide masters, document masters, and layouts. Skills in using and modifying pre-defined themes are also assessed.

AI ANALYSIS OF ANSWERS

This domain covers creating, using, and managing presentation templates, slide masters, and layouts, along with modifying pre-defined themes. The candidate achieved a 33.33% success rate, demonstrating limited proficiency. Regarding theme customization, the candidate was not able to invert theme colors or add colors outside the theme palette. For template and layout management, the candidate does not seem to understand how to use different slide layouts or manage the preserve master option. However, the candidate demonstrated competence in naming default templates and successfully completed the practical exercise on notes page layout, showing some capability in template-related tasks despite overall weak performance.

Graphic Objects

DOMAIN DESCRIPTION:

This domain covers inserting and formatting graphic objects (Clipart, charts, SmartArt), and PowerPoint animations.

AI ANALYSIS OF ANSWERS

This domain covers inserting and formatting graphic objects including clipart, charts, SmartArt, and PowerPoint animations. The candidate achieved an exceptional 100% success rate, demonstrating comprehensive mastery. Regarding shape and object manipulation, the candidate is able to modify shape points and hide objects effectively. For multimedia integration, the candidate understands usable audio formats and can incorporate WAV files into presentations. Additionally, the candidate knows how to program text display on videos and configure shadow parameters. The candidate successfully completed all practical exercises, including object hiding tasks, confirming strong technical proficiency across all graphic object and animation skills.

Text Formatting

DOMAIN DESCRIPTION:

This domain covers text input: using text placeholders, basic and advanced formatting, bullets, and numbering. It also covers creating and manipulating tables.

AI ANALYSIS OF ANSWERS

This domain covers text input, formatting, bullets, numbering, and table manipulation within presentations. The candidate achieved a 33.33% success rate, indicating significant gaps in text formatting competency. Regarding basic text formatting and placeholders, the candidate was not able to invert theme colors or change spell checker language settings. For advanced formatting and text effects, the candidate demonstrates mixed abilities—successfully recognizing text transformations and effects, yet unable to manage various slide layouts. The candidate was not able to insert footers in the practical exercise, suggesting difficulty with header/footer functionality. Overall, the candidate does not seem to understand comprehensive text formatting and footer management despite some success with text effect recognition.

Environment, Methods, and Slideshow

DOMAIN DESCRIPTION:

This domain covers the main features and functions of the common tabs: File, Home, Design, Insert, and Slide Show. Skills assessed include creating, inserting, and selecting slides; basic and advanced functions of Slide Show view; and configuring print and save parameters.

AI ANALYSIS OF ANSWERS

This domain covers main features of File, Home, Design, Insert, and Slide Show tabs, including slide creation, selection, slideshow functions, and print/save configuration. The candidate achieved a 57.14% success rate, demonstrating moderate competency with notable gaps. Regarding slideshow presentation tools, the candidate is able to identify available tools during presentations and understand usable audio formats. For advanced features and configuration, the candidate was not able to add action buttons in the master or manage revision comments. However, the candidate successfully completed practical exercises on notes page layout and adding sound to photo mouseovers, showing capability in multimedia integration. The candidate demonstrates partial understanding of environment features but struggles with advanced slideshow configuration.
